

NISHTHA ARORA | RESUME

- » **Status:** B.Tech Computer Science Engineering (AI/ML) Student
- » **Programming:** Python, SQL, C++
- » **Data Analytics:** Pandas, NumPy, Excel, Google Sheets
- » **Visualization:** Tableau , Dashboards, Data Visualization
- » **Machine Learning:** Scikit-learn, Decision Trees, Recommendation Systems
- » **Tools:** GitHub, Jupyter Notebook, Vscode
- » **Coursework:** DBMS, Data Structures, Machine Learning, Artificial Intelligence

Summary

Motivated and detail-oriented B.Tech Computer Science (AI/ML) student skilled in Python, SQL, Power BI, Excel, Machine Learning, Data Visualization, and Data Analytics. Experienced in building dashboards, analyzing datasets, and developing machine learning projects. Seeking Data Analyst / Tech Intern opportunities to apply analytical and problem-solving skills for data-driven decision-making.

Experience

- | | | |
|---|---|------------------------------|
| 10/2025
-12/2025 | - Data Analytics & Machine Learning Intern | Online Virtual
Internship |
| <ul style="list-style-type: none">» Implemented Decision Tree models achieving 90% accuracy for classification tasks» Analyzed datasets containing 10,000+ records using Python (Pandas, NumPy) and SQL» Built 3+ Power BI dashboards for KPI tracking and performance monitoring» Delivered actionable insights to support data-driven business decisions | | |

Projects

- | | | |
|---|--|------------------------------------|
| 2023 | Autonomous Driving using Deep Q-Learning | ICAIA Conference
Research Paper |
| <ul style="list-style-type: none">» Studied Deep Q-Learning models and analyzed attack and defense mechanisms» Performed research on reinforcement learning techniques in autonomous driving | | |
| | Virtual Keyboard using OpenCV | Computer Vision
Project |
| <ul style="list-style-type: none">» Built a gesture-based virtual keyboard using OpenCV and Python» Implemented real-time hand tracking and gesture recognition | | |
| | E-commerce Sales Dashboard | Data Analytics
Project |
| <ul style="list-style-type: none">» Developed interactive dashboard to track revenue, profit, and sales trends» Identified top-performing products and regional performance insights | | |
| | MovieSphere – Movie Recommendation System | Machine Learning
Project |
| <ul style="list-style-type: none">» Developed a Netflix-like recommendation system using collaborative and content-based filtering» Built recommendation engine using Python, Pandas, and Scikit-learn | | |

Education

2022 - 2026	B.Tech Computer Science Engineering (AI/ML)	Chandigarh University, India
	» CGPA: 7.6	
2022	High School	Holy Child Public School, Faridabad
	» Percentage: 77.4%	
2020	Secondary School	Holy Child Public School, Faridabad
	» Percentage: 85.8%	

Certifications & Achievements

- » Oracle Certified Professional – Generative AI (OCI 2024)
- » AWS Academy Graduate – Cloud Foundations
- » Microsoft – Generative AI for Data Analysis (Coursera)
- » IBM – Python for Data Science & AI
- » Winner – Techathon 3.0
- » Smart India Hackathon (SIH) Nominee
- » Content Creator – YouTube and Instagram
